RETRO MINIMALISM

The Interior Toolbox 2023

The project focuses on simplicity, functionality, and warmth. The design features clean lines, a neutral color palette, and natural materials such as wood and stone to create a calming and inviting atmosphere. The use of natural light and simple but stylish lighting fixtures helps to highlight the beauty of the space while creating a warm and cozy ambiance. The furnishings are chosen for their functional design, with a focus on comfort and practicality.

The overall effect of the design is a harmonious and relaxing environment that is both functional and aesthetically pleasing.

Notes:

'Less is more'
- Ludwig Mies van der Rohe.

The quote perfectly encapsulates the philosophy behind a minimal Nordic interior.

WARM SIMPLICITY

Key Pieces

The use of natural materials such as wood and stone adds warmth and texture to the space, while accents of black or darker hues provide contrast and depth. The resulting effect is a timeless and sophisticated aesthetic that is both modern and welcoming.

CONCEPT

777

SMITH RESIDENCE

Retro minimalism represents the power of simplicity. The idea is to use clean lines, muted colors, and natural materials to create a space that is both calming and inviting. It will reflect a desire to move away from the excesses of modern life and return to a simpler, more honest way of living by embracing a pared-down aesthetic
